Jane Yang

Full Stack Developer with 5 years of experience

@ x.solution1027@gmail.com 📍 Taipei City, Taiwan

SUMMARY

I specialize in developing robust and scalable web applications using the **MERN** stack (**MongoDB**, **Express.js**, **React, and Node.js**) and **Next.js**. With over **5 years** of experience in both **frontend** and **backend** development, I create dynamic user interfaces, handle server-side logic, and optimize database management to deliver seamless, end-to-end solutions that ensure efficient performance and responsive user experiences.

SKILLS

Front End

HTML   JavaScript   CSS   React.js   Next.js   Vue.js   TypeScript   Tailwind CSS   Bootstrap

Back End

Node.js   Express.js   Laravel   MongoDB   GraphQL   MySQL   PHP   Django

DevOps & Tools

Git   GitHub   Bitbucket   Jira   Terraform   Docker   Vercel

EXPERIENCE

Amy's Kitchen

📅 02/2023 - 07/2024   📍 Canada

Senior Full Stack Engineer

- **Developed and maintained a robust Internal Tool for a food delivery platform** using **React.js, Next.js, Laravel**, facilitating seamless communication between delivery personnel, suppliers, and buyers.
- **Implemented responsive UI/UX designs** utilizing **Tailwind CSS** to ensure optimal cross-device functionality, contributing to a 25% increase in user satisfaction and platform engagement.
- **Integrated Google Maps API to optimize delivery routes** and provide real-time tracking of delivery personnel, improving route efficiency and reducing delivery time by 20%.
- **Developed a real-time driver tracking feature** that displays the location of all drivers on a dynamic map, enhancing visibility and coordination for dispatch teams, leading to better resource management and faster deliveries.

Agile Engine

📅 02/2019 - 05/2022   📍 Boca Raton, FL, US

Senior Frontend Engineer

- **Integrated existing software into new or modified systems and operating environments**, ensuring seamless migration and compatibility with evolving technology landscapes.
- **Developed the UI layer from scratch** for multiple web applications using **React.js, Next.js, and Material UI**, resulting in user-friendly, visually appealing, and responsive interfaces.
- **Engaged with 54 clients during an internship**, successfully negotiating and closing 30 new contracts, contributing to significant business growth.
- **Rewrote and migrated legacy payment services** to a new scalable, high-performance system such as Stripe, PayPal Payments API and Crypto Payment Gateways, significantly enhancing system **availability, reliability, and transaction speed**.
- **Leveraged Storybook's visual testing capabilities** to identify and resolve UI bugs early in the development cycle, reducing the time spent on manual testing by 30%.

EDUCATION

Bachelor of Science, Computer Science
National Taiwan University

📅 2012 - 2016
